

INFRASTRUCTURES IN A HORIZONTAL FARMERS COMMUNITY

Human agreements, communication infrastructures
Campi Aperti - Bologna - Italy

OUR ORGANIC FOOD AUTONOMY

- WHY: to decide how the countryside is changing
- WHO: farmers, processors (only in relation to producers), consumers = co-producers
- FROM: Via Campesina, 1999 no global movement, radical anticapitalist background

A photograph of a crowded public space, possibly a market or festival, with a semi-transparent text overlay. The scene is filled with people, some holding drinks, under a large, industrial-style roof structure. The text is centered and reads: "In shared public space: squares and squats".

In shared public space:

squares and squats

ODISSEA PER LO SPAZIO

CONTRO IL NULLA CHE AVANZA

I LOVE XM24 – BANDIERE ALLA FINESTRA

A photograph of a busy outdoor market scene. In the foreground, several people are seen from behind, looking towards the market stalls. The stalls are covered with various goods, including what appears to be fresh produce. In the background, there are multi-story brick buildings with many windows, some with balconies. The market is covered by a large, dark metal structure, possibly a bridge or a walkway. The lighting suggests it's daytime, with shadows cast on the ground.

a different idea of the time!

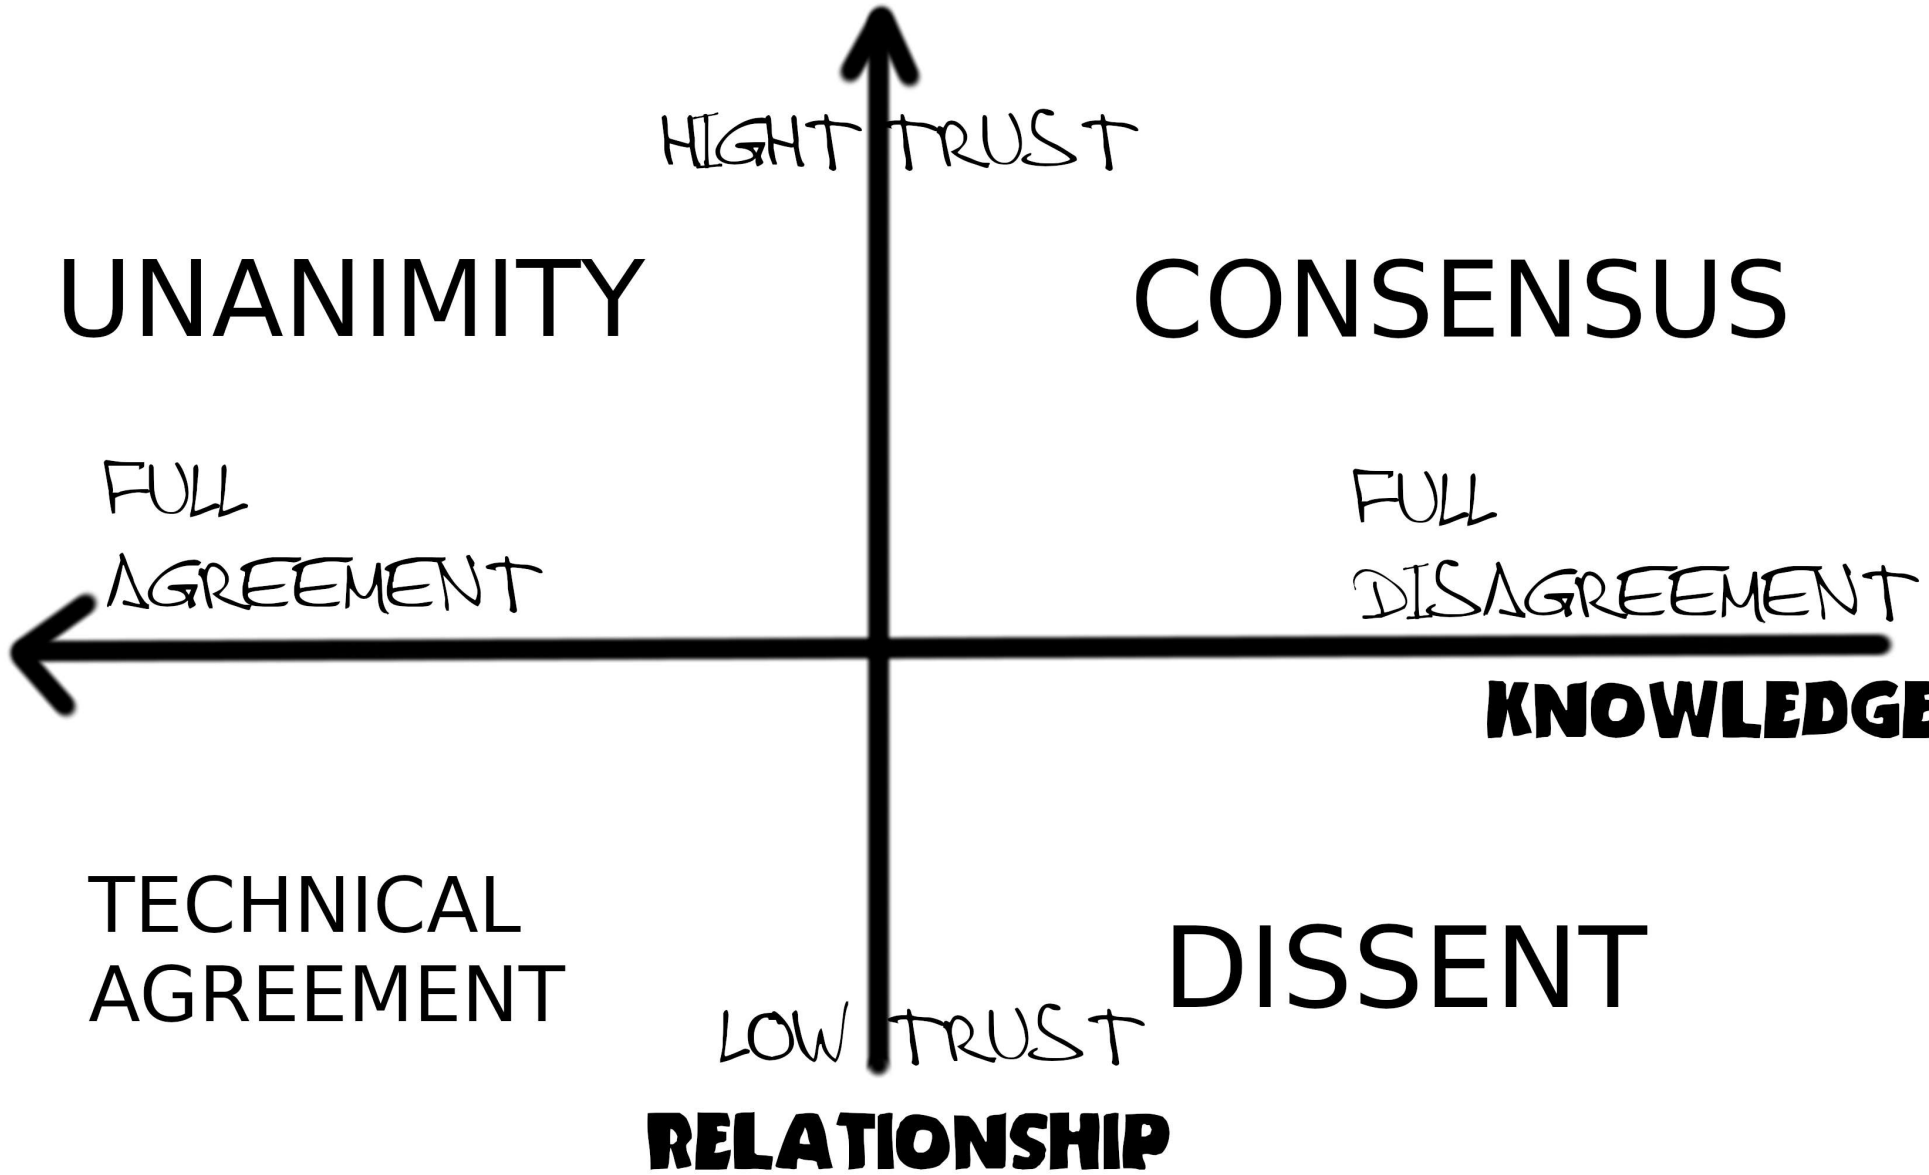

- the time not depend from us
- cyclical
- planned
- human thinks change, slowly

- 
- A group of people, including men, women, and children, are sitting in a circle on the ground outdoors. They appear to be engaged in a community meeting or discussion. The setting is a grassy area with trees in the background. The text is overlaid on the image.
- food autonomy
 - agroecology
 - consensus method
 - shared warranty
 - sense of limit
 - mutualism

OUR SHARED AGREEMENTS

- reports
- time keeper
- right to listen/ to be listen
- everyone talks for herselfes (no meta discussion)

DEPLOYING A FEMINIST PERSPECTIVE

technology is a proportion of skills and dependencies

- do not do things alone
- testing environment
- document everything and explain the choice of algorithms
- give yourself the time to study
- not be too much specialized

Welcome to Autistici/Inventati

A/I (Autistici/Inventati, pronounced [au'tistitʃi]-[inj'vɛntati], or [injvɛn'tati]) was born in 2001 from an encounter of individuals and collectives of the autonomous anticapitalist movement interested in technology and active in the digital rights struggle. We believe that this world is far from being the best world possible. We react by providing a platform and tools for digital self-defense addressing the need of secure, free communication and privacy for activists and other individuals.

All of our services are provided for free, without any form of control or commoditization of the personal user data. We don't receive any form of compensation for our work. We are volunteers exploiting the experiences we accumulated over years of technological, political and legal research while doing radical activism, and we are motivated and inspired by the principles of solidarity and self organization.

Our financial strategy relies exclusively on voluntary donations.

We provide our services strictly for non-commercial use, in order to provide support exclusively to individuals or groups we feel we have an affinity with. In order to verify the existence of these pre-conditions, each and every service request is processed manually by one of our volunteers and is in a dialogical form. All requests are anonymized and will be destroyed.

If you would like to use our services, please check if you agree with our [manifesto](#), pledge respect to our [policy](#) and have a look at how we respect [your data](#).
